TRI-WAVE MD

THE NEXT GENERATION OF LED PHOTOTHERAPY

Dermalux® CELEBRATING 10 YEARS

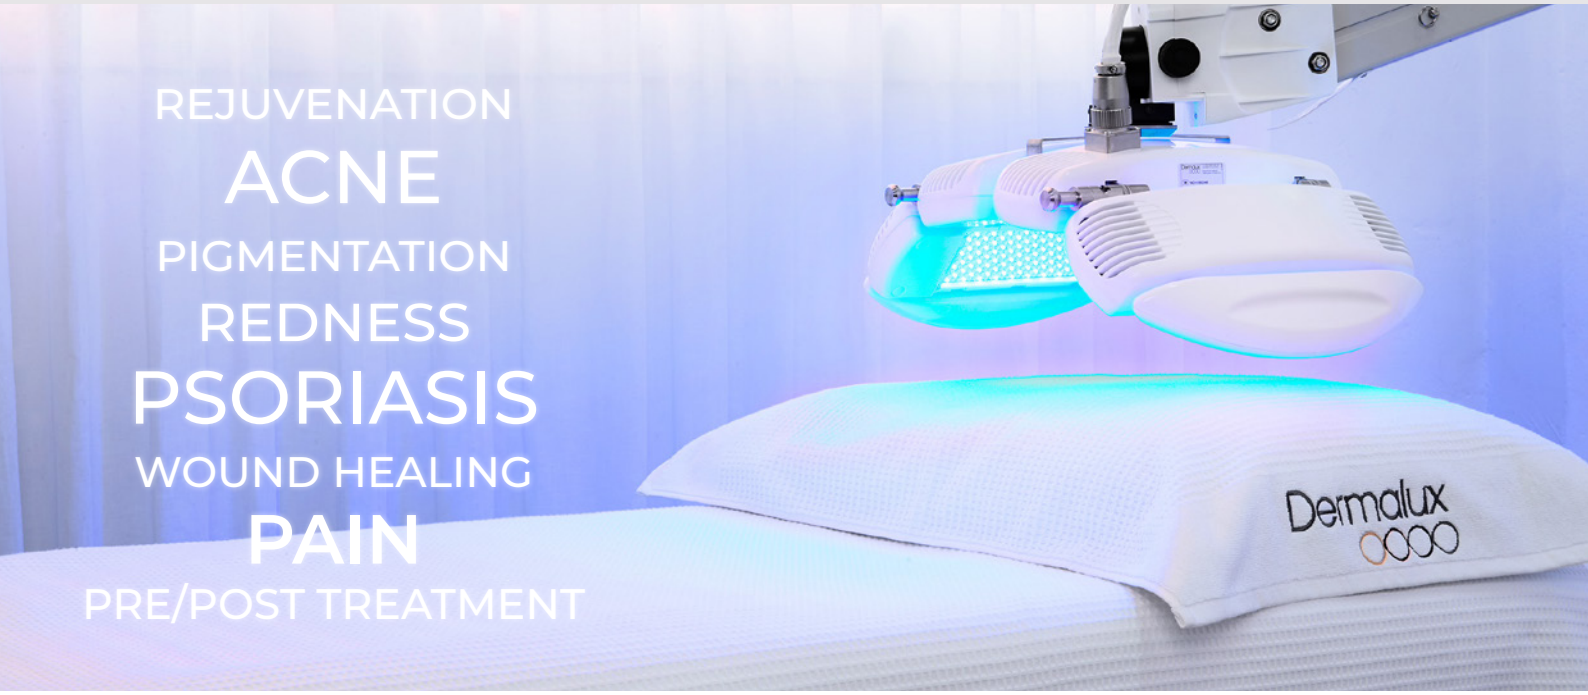
Aesthetics Awards WINNER 2013-2017 UK BEST TREATMENT

Aesthetic Awards WINNER 2018 & 2021 MANUFACTURER OF THE YEAR

THE POWER TO TRANSFORM

The Tri-Wave MD signifies a new era in LED Phototherapy treatments pushing the boundaries of medical LED technology and next level clinical application.

Delivering maximum power via breakthrough targeted ceramic technology and smart integrated cooling, this is the ultimate medically certified LED device for skin care professionals who want to deliver fast, unrivalled results for a wide range of indications.



THE POWER OF LIGHT

MOST CLINICALLY PROVEN WAVELENGTHS

Dermalux Blue 415nm

BLUE 415nm is the most proven wavelength to destroy the bacteria which causes acne and improve skin clarity without irritation. Powerful antibacterial action also has a calming effect to reduce redness and inflammation.

Dermalux Red 633nm

RED 633nm supercharges cell energy to accelerate repair and renewal, boost collagen synthesis, increase hydration and enhance circulation to reverse the visible signs of ageing. Ideal for restoring vitality and glow.

Dermalux NIR 830nm

NEAR INFRARED 830nm targets deeper cells to trigger the wound healing process, calm redness and irritation, reduce pigmentation and promote healthy skin. Combine with Red 633nm for advanced rejuvenation benefits.

TRI-WAVE MD
ADVANTAGES

PHOTODYNAMIC THERAPY (PDT)

The Tri-Wave MD offers the gold standard in Photodynamic Therapy (PDT) due to its large treatment application for the face, head and body, custom energy delivery via joules or time and specific PDT mono and polychromatic wavelength protocols.
